

# HULAMIN

---

## Corporate Profile

Hulamin is a leading, focused, mid-stream aluminium semi-fabricator.

It purchases primary aluminium and supplies its range of high value, niche rolled products and complex extrusions to manufacturers of finished products in South Africa and over 50 countries around the world.

Hulamin's largest activity is aluminium rolling which contributes more than 80% to its revenue, with the balance comprising extruded products and other downstream products. Although the South African market is an important and growing element of Hulamin's business, a significant portion of rolled products are exported to regions such as Europe, North America, Middle East and Asia.
